

## Seven Layer Stuff Recipe

1.5 Cups of graham cracker crumbs

6 Tbs of butter

(Could also use a premade graham cracker crust)

1 Cup of chocolate chips

1 Cup of complimenting chips (butterscotch, peanut butter...)

1 Can of condensed milk

1-1.5 Cups of shredded coconut

1 Cup of chopped nuts (walnuts or pecans work great!)

One of the good things about this recipe is it is easy to change it up to make it what you like or have on hand.

Preheat oven to 350 degrees

Mix together graham cracker crumbs and melted butter. Spray pie pan with nonstick spray and fill with mixture. If using a premade crust skip this step.

Add in chocolate chips and your complimenting chips.

Add nuts.

Add Coconut.

Pour Condensed milk over the top.

(Tip open condensed milk can halfway and then add just a puncture on the opposite side.

Then fold the open half back. This makes it much easier to pour and control where it goes.)

Bake for 25 minutes and enjoy!
